**Overall Length:**

31.000 inches

**Overall Height:**

67.000 inches

**Overall Width:**

31.000 inches

**End Application:**

Particle analysis of oil for f110-ge-100 & f110-ge-129 engines

**Model Number:**

Jetscan

**Special Features:**

Integral wheel mounted case with slots for forklift. 1 hour setup and calibration. Software installed for specific jet engines - f110-ge-100 and -129

**Functional Description:**

Scanning electron microscope proven off-line microscopic analysis of the magnetic chip detector debris & indicates whether maintenance is required based upon the quantity, size, & material type of the debris

**Reference Data And Literature:**

Serd & commercial data

**Relationship To Similar Equipment:**

REPL-AC-EME-NTFO

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No
