Usage Design:

Any acceptable

Universal Medical Device Nomenclature System Code:

18292

Nonstereoscopic Type:

Trinocular and binocular

Body Tube Position:

Vertical

Nosepiece Design:

Revolving

Product Name:

Microscope optical trinocular-binocular ergonomic design

Special Features:

Ergonomic design; olympus universal infinity system optics; wide magnification range: 1.25x-100x; rigid y shape frame; superb fluorescence microscopy, long life fluorescence bulb; optical brightfield/phase contrast microscope w/coarse and fine focusing; suitable for diagnostic and rsch applications; components: bx41tf, uycp-11 uycp, 5 ul1035 u-ls30, 8-c410, 9-u115, 3u124, u-r1052, 4-u130, 4-u146, 6-u111, 1-ub222, 1-ub223, 1-ub227, 1-ub235, 2u1004, cover018

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T271-c
