End Application:

F100 aircraft engine

Focusing Type:

Adjustable

Optical Device Type:

Lens

Straight Typelength:

1400.0 millimeters

Product Name:

Flexible boroscope

Special Features:

C4mm flexible boroscope, 120 degrees up or down, depth of field 5-50mm, field of view 50 degrees min, outside diameter .181 in, illuminating fibers, option p on pnpolyurethane jacketing over braided steel mesh

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T271-a
