Accessory Components And Quantity:

RUBB-ER-EYE-PIEC

Focusing Type:

Adjustable

Optical Device Type:

Lens

Straight Typelength:

140.0 millimeters

Product Name:

Flexible borescope

Special Features:

Straight direction view flexible borescope, small diameter, high resolution, angulation up or down 120 deg, polyurethane impregnated steel mesh cover, illuminating fibers, field of view 65 degrees

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T271-a
