End Application:

Continuum/momentum microscope

Magnification:

10.0x

Similarity Feature:

Matched and paired

Product Name:

Trinocular viewing attachment

Special Features:

Zinterocular distance adjustment of 53.0 to 75.0 millimeters; accomodates photomicrographic or video equipment; viewing selector allows for observation only, observation and photo, or photo only; rotatable; has 30.0 degree inclination

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T271-g
