**Body Tube Position:**

Vertical

**Product Name:**

Centaurus infrared microscope, main body

**Special Features:**

Sampling modes include - transmission, reflection, and attenuated total reflectance (atr); 10x objective permanently aligned; atr crystals are user interchangeable; standard contact alert signals when optimum a.T.R. Pressure is obtained; infrared spectra collected from samples as small as 20 microns

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T271-c
