End Application:

Jet engines

Focusing Type:

Adjustable

Optical Device Type:

Lens

Objective Aperture Diameter:

0.240 inches

Magnification Type:

Variable

Special Features:

Insertion tube length 8.400 ft; joystick-controlled motor driven; hand held controller with 5 inch diag high resolution active matrix lcd; 50 wt solar lamp light source

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T271-a
