Special Features:

Used for quantitative analysis of food, drink, wastewater, etc; filter selection lever; built in print control; 100/115 vac, 220/240 vac, 50/60 hz; range 340/950 nm; led display; photometric range: 0 to 100 pct transmittance; 0 to 1.95 absorbance; 0 to 1999 concentration; lgth 330 mm; width 413 mm; ht 210 mm; spectronic 20 d plus

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T271-d
