Overall Length:

3.750 inches

Overall Diameter:

1.250 inches

Product Name:

Ir-eye directional miniature passive infrared thermal telescope

Special Features:

Passive non-contact monitoring; low power consumption; high environmental noise rejection; water resistant; no interference between units; fast response; indoor/outdoor operation; range of 195 feet; 3-15 vdc supply voltage; refractive, plano-convex optics; two channel lithium tantalate pyroelectric detectors; analog output

Color:

Green

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
