Product Name:

Spectrometer

Special Features:

Series 3936 scanning mobility particle sizer spectrometers measure particles from 0.0025 to 1.0 μm . They display data using up to 167 actual size channels (up to 64 channels per decade) for the highest resolution and accuracy available.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T271-d
