**Overall Length:**

36.000 inches

**Overall Height:**

24.000 inches

**Overall Width:**

24.000 inches

**End Application:**

F100 series aircraft engines

**Unpackaged Unit Weight:**

35.000 pounds

**Wattage Rating:**

150.000 watts

**Product Name:**

Electronic turning tool

**Special Features:**

speed not less than 10 minutes revolution per minute, no greater than one minute per revolution; bidirectional; 86 to 250vac 40-400hz

**Functional Description:**

Used to rotate engine during borescope internal inspection

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli
