Width:

1.800 inches

Diameter:

1.700 inches

Length:

5.500 inches

Carrying Case:

Provided

End Application:

General purpose electronic test equipment (gpete)

Accessory Components And Quantity:

Handheld video display 1; video inspection probe 1; tips 12; cleanchek connector cleaner reel 1; cleaning stic (2.5mm, 5/pkg) 10; univ.2.5mm ibc cleaning tool 2; pelican 1550 case, w/foam 1; case, plastic, w/dividers for tips/adapters 1, service manual 1, operating manual 1

Design Type:

General purpose

Magnification:

Between 200.0 and 400.0

Product Name:

Handheld analog video probe microscope for fiber inspection

Special Features:

4 or 6 pin Hirose connector type; 1/3-in CMOS camera type; blue LED, internal to probe, 100,000+hours; coaxial lighting technique; adjustable, in-probe focus control; display device, USB port power source

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T271-c
