Design Designation:

Perkin-elmer

Special Features:

Icp autosamplers - flexible rack configuration, random access, corrosion-resistant sampling, flow through rinse station, microwave sampling digestion system; flow injection system - simplifies and speeds up analyses; icp consumables - torches, nebulizers and standards; high-throughput sample introduction system - throughput increased to 2-3 fold, eliminates sample contact with peristaltic pump tubing

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T271-d
