Product Name:

Germanium window, assembly

Special Features:

Anti-reflection coated for 3 um to 12 um; available in 4 sizes from 25.0 to 75.0 diameter; ideal for ir applications with its broad transmission range and opacity in the visible portion of the spectrum; germanium (ge) has high index of refraction, making it a perfect choice for applications that require low dispersion; germanium is also commonly used in imaging system operating; excellent for optics used in low power co; laser applications

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fiig:

T271-f
