Width:

3.2 inches

Depth:

1.5 inches

End Application:

Test set optical power

Product Name:

Opm 4 optical power meter

Special Features:

Calibrated wavelengths (nm) 660, 780 and 850, detector type silicon (si), measurement range (dbm) +6 to -70, power typical 60 hours with 9v battery, operating temp -10 to 50deg c,

Height:

5.5 inches

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T228-a
