**Lamp Quantity:**

1

**Accessory Components And Quantity:**

1cm plastic cuvet, cuvet racks and compartments

**Usage Design:**

Simple to use visible item for teaching and routine appl

**Wavelength Range:**

+340.0 to 1000.0 millimicrons

**Product Name:**

Thermo scientific spectronic 200

**Special Features:**

Display: lcd; hxdxw: 3.6x11.8x15.3; lamp: tungsten halogen; optical design: single beam; spectral bandwidth: less than 4.0nm; wavelength accuracy: plus and ninus: 2nm wavelength repeatability: plus and ninus 1nm; item wt: 9.7 lbs

**Supplementary Features:**

Detector type: 2048 element ccd; req: 100 to 240v 50/60hz

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T271-d
