General Description:

Cassette magentic tape recorder, records 3200 bits/inch at 400 bits/second, 115 x 10 6 bits total capacity, sampling rate 8 per rotor turn, currents speed .05 to 6 knots, current direction. Compass 0 degrees to 360 deg. Vane 0 deg to 360 deg., compass and vane direction resolution 2.8 deg, operatin temp range -2 deg.C to 35 degrees c, battery life at average 3-knot current alkaline 9 months, tensile load capacity: 10, 000 lbs. (4, 500 kg) through pressure housinging, wegiht 160 lbs in air, 77 lbs in water, outside dia.: 10 15/16 in. Rotor-vane cage, 7 1/2 in. Pressure housing.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
