**Overall Length:**

36.000 inches

**Overall Diameter:**

4.880 inches

**Special Features:**

An/ssq-36; transmits on channel 14; helicopter compatible; parachute equipped; w/sonobouy launch container long slot; used to measure thermal gradient temperature of seawater

**Frequency In Hertz:**

172000000.0

**Reference Number Differentiating Characteristics:**

Helicopter compatible; channel number; 2500 ft depth and by joint electronics type designation system item type number

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A27600
