Overall Length:

36.000 inches

Overall Diameter:

4.880 inches

Special Features:

An/ssq-36; w/slc lau-126/a; preset to channel 14; helicopter compatible parachute; launch envelope f; 1000 ft depth; used to measure thermal gradient temperature of seawater

Frequency In Hertz:

172000000.0

Reference Number Differentiating Characteristics:

Joint electronics designation system item type number; slc lau-126/a

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A27600
