Information Recorded:

Magnetic variation

Special Features:

Can measure field strength up to four locations simultaneously, and see results on a backlit lcd. Two problems will cover the entire rf spectrum, 10 khz to 40 ghz. Eight field probes with sensitivity from 0.15 to 3000 v/m, 15ma/m to 30a/m. Frequency response from 40 to 300 msec./min. And isotropicity of +/-0.5 to 1.2 db

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T206-a
