Magnetic Distortion Recorder - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/6655-01-467-6984

Information Recorded:	

Magnetic variation Special Features:

Shelf Life:

T206-a

Can measure field strength up to four locations simultaneously, and see results on a backlit lcd. Two problems will cover the entire rf spectrum, 10 khz to 40 ghz. Eight field probes with sensitivity from 0.15 to 3000 v/m, 15ma/m to 30a/m. Frequency response from 40 to 300 msec./min. And isotropicity of +/-0.5 to 1.2 db

N/a
Unit Of Measure:
Demilitarization:
No
