**Product Name:**

Magnetic field indicator.

**Special Features:**

7z769 n500203 magnetic field indicator. N500203001. Not calibratable or certifiable. Not a machine part, but a go-no go analog meter for checking the existence of magnetic field in a part during or after testing-no specific accuracy is available on this item. Most end-users are likely to replace with either a calibratable and certifiable analog, or digital gauss meter.

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A534a0
