Special Features:

P2 and f2 ty of emission received; freq 400 to 406 mhz and 1660 to 1700 mhz range 2 bands 2 chan 400 to 406 mhz 1660 to 1700 mhz of individual chan; man and automatically operable btwn m5 and p95 degrees elevation and in continuous range of zn; oper pwr rqmt ac 110 v 60 hz 1 ph; tent or van mtd; maj components 1 jetds ea direction finding gp oa6519gmd4 and //, meteorological data converter gp oa6520gmd4 and //; fsc appl meteorological equip;

Functional Description:

Automatically tracks airborne meteorological instruments and converts data to suitable form for transmission over teletype lines

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23800
