Mounting Material:

Aluminum alloy

Mounting Type:

Hand held grip

Scale Unit Of Measure Inscription:

Knots per hour and degrees

Major Components:

Carrying case; anemometer-wind vane; transmitter, wind speed

Accessory Controlling Agency:

Ana

Accessory Identifying Number:

Cy-1067-pmq-3 type no. And ml-446-pmq-3 type no. And ml-447-pmq-3 type no. And t-321-pmq-3 type no.

Wind Speed Component Operation Method:

Wind actuated generator

Wind Direction Component Operation Method:

Nontransmitting wind vane locked in position for observation

Dial Type And Range:

+0.0/+15.0 wind speed indicator and +0.0/+60.0 wind speed indicator and +0.0/+360.0 wind speed indicator

Specification Or Standard:

No. An-pmq-3 type

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T206-e
