Overall Length:

31.750 inches

Overall Height:

16.125 inches

Overall Width:

25.750 inches

Component Quantity:

11

Locking Device:

Not included

Component Controlling Agency:

Sig; jetds; sig; plug; sig; sig; sig

Component Name:

Head and chest sets; hydrogen generator; jack; sig c; reel; theodolite; time interval unit

Component Identifying Number:

Hs-25 type no. And ml-138 type no. And ml-247 type no. And ml-303/tm type no. And jk-39 type no. And pl-57 type no. And rl-39 type no.

Handle Quantity:

4

Handle Location:

Front and rear

Material:

Plywood

Material:

Plywood

Surface Treatment:

Enamel

Surface Treatment:

Enamel

Specification Or Standard:

Cy-1b1/tmq-1 type

Fsc Application Data:

Meteorological station, manual

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T358-a
