Scale Unit Of Measure Inscription:

Graduated in knots

Major Components:

Anemometer wind vane; spare wind speed transmitter; spare wind vane; carrying case

Accessory Controlling Agency:

An

Accessory Identifying Number:

Mil-44 (b)/pmq-3 type no. And t-321(b)/pmq-3 type no. And ml-447(b) /pmq-3 type no. And cv1067b/pmq-3 type no.

Wind Speed Component Operation Method:

Wind actuated generator

Wind Direction Component Operation Method:

Wind vane position read directly on numbered scale

Dial Type And Range:

0 to 15, 0 to 60 wind speed indicator

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T206-e

Mil-std (military Standard):

spec.
