Mounting Material:

Aluminum

Mounting Type:

Pipe 50 ft lg

Scale Unit Of Measure Inscription:

Miles per hour

Major Components:

Mast; indicator, wind speed; transmitter, wind speed

Accessory Controlling Agency:

Jcens

Accessory Identifying Number:

Ab-503/u type no. And id-624/gm type no. And t-61q-mm-q-1a type no.

Wind Speed Component Operation Method:

Wind actuated generator

Wind Direction Component Operation Method:

Wind name position transmitted by synchro to indicator

Dial Type And Range:

+0.0/+360.0 wind speed indicator and +0.0/+50.0 wind speed indicator

Specification Or Standard:

No. An/pm-q-6 type

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T206-e
