**Mounting Material:**

Aluminum

**Mounting Type:**

Pipe 50 ft lg

**Scale Unit Of Measure Inscription:**

Miles per hour

**Major Components:**

Mast; indicator, wind speed; transmitter, wind speed

**Accessory Controlling Agency:**

Jcens

**Accessory Identifying Number:**

Ab-503/u type no. And id-624/gm type no. And t-61q-mmq-1a type no.

**Wind Speed Component Operation Method:**

Wind actuated generator

**Wind Direction Component Operation Method:**

Wind name position transmitted by synchro to indicator

**Dial Type And Range:**

+0.0/+360.0 wind speed indicator and +0.0/+50.0 wind speed indicator

**Specification Or Standard:**

No. An/pm-q-6 type

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T206-e
