Special Features:

Parameter rh from 15 to 100 pct temp from m 90 degrees to p 60deg c pressure from 5 to 1060 mb; records by means of an ink pen on recording chart 0; 5.000 in.Per min rec feed 1.000 in.Per min record fgeef 2.00 in.Per min record feed 2.000 in.Per min record feed; pwr oper ac 105 to 125 v 50 to 65 hz 1 ph; maj components 1ea jetds elec equipmentcabinet type c-1390a/tmq-5, jetds accessories case type cy-930/tmq-5, jetds signal data converter type cv-146/tmq-5, jets cont panel type c-834/tmq-5, jetds pwr supply type pp-968/tmq-5, jetds freq time recorder type rd-88c/tmq-5, 4 interconnecting cable assembly; accessories 1 ea chart weight, screwdriver, tube puller, 2 wrench, double end; functional description: converts and records meteorological parameters received from balloonborne radiosondes

Specification Or Standard:

An/tmq-5c type

Fsc Application Data:

Recording set weather data

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T206-a
