**Overall Length:**

21.500 inches

**Overall Height:**

21.500 inches

**Overall Width:**

4.625 inches

**Component Quantity:**

9

**Locking Device:**

Not included

**Component Controlling Agency:**

S1g

**Component Name:**

Scale; plotting board; wind direction protector; wind velocity scale

**Handle Quantity:**

1

**Handle Location:**

Bag top

**Material:**

Cotton

**Fsc Application Data:**

Meteorological station manual

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

T358-a
