Overall Length:

21.500 inches

Overall Height:

21.500 inches

Overall Width:

4.625 inches

Component Quantity:

9

Locking Device:

Not included

Component Controlling Agency:

S1g

Component Name:

Scale; plotting board; wind direction protector; wind velocity scale

Handle Quantity:

1

Handle Location:

Bag top

Material:

Cotton

Fsc Application Data:

Meteorological station manual

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T358-a
