Body Diameter:

2.000 inches

Body Length:

5.750 inches

End Application:

Meteorological equipment

Special Features:

Shield sensor dewpt: material wall thicknesss 0.065 in.

Material:

Aluminum alloy

Surface Treatment:

Anodize

Surface Treatment:

Anodized

Fsc Application Data:

Meteorological instruments

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T23700
