Body Diameter:

75.000 inches

Neck Diameter:

1.000 inches

Neck Length:

4.500 inches

Usage Design:

Used to carry sounding equipment

Err Default:

Err default

Minimum Bursting Altitude:

110000.000 feet

Lifting Force In Grams:

3900.000

Color:

Natural

Material:

Plastic

Material:

Plastic

Shape:

Spherical

Weight:

1100.000 grams

Specification Or Standard:

MI-537a/um type

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T206-h
