Body Diameter:

60.000 inches

Neck Diameter:

1.000 inches

Neck Length:

4.500 inches

Usage Design:

Used to carry sounding equipment

Minimum Bursting Altitude:

90000.0 feet

Lifting Force In Grams:

3900.0

Color:

Natural

Material:

Rubber, neoprene latex

Material:

Rubber chloroprene class cr

Shape:

Spherical

Weight:

800.0 grams

Specification Or Standard:

MI-537/um type

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T206-h
