Overall Length:

15.600 inches

Overall Height:

13.800 inches

Overall Width:

10.300 inches

Current Type:

Ac

Ac Voltage Rating:

115.0 volts

Frequency Rating:

60.0 hertz

Accessory Components And Quantity:

Ink, chart

Operating Range:

+0.0/+360.0 degrees and +0.0/+100.0 knots

Information Recorded:

Wind direction and wind speed

Graduation Unit:

10.000 degrees and 2.000 knots

Recording Method:

Ink pen on recording chart

Chart Drive Method:

Electromechanical assembly

Phase:

Single

Fsc Application Data:

Used with wind direction and speed indicator

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T206-a
