Current Type:

Dc

Accessory Components And Quantity:

Orientation ring 1

Mounting Configuration:

Mounts on standard 1 in. Iron pipe

Wind Speed Transmission Method:

Wind driven generator

Wind Direction Transmission Method:

Potentiometer

Wind Speed Rotor Type:

Blade

Wind Speed Rotor Material:

Plastic

Wind Direction Component Type:

Balanced-pointer, vertical vane

Wind Direction Component Material:

Plastic

Special Features:

360 degrees azimuth range

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T206-f
