End Application:

Automated surface observing system (asos)

Special Features:

Manufacturer's name: sensor, temperature/dew point; mounted on 18 in. High pedestal; c/o 3 in. Num schedule 40 pipe and 3 in. Standard class 150 flange; rs-232 compatible; sensor pkg 18 x 36 x 25 in.; sensor measures temp -80 to +130 degrees f; sensor measures dewpoint temp -30 to +86 degrees f; sends data to control point every 10 sec; 115 +/- .5 v, 55-65 hz, single phase; mtgb 2.9 hours; fru incl: transmitter logic card, 62828-90114-1; calibrator assembly, 62828-90114-7; enclosure, 62828-90114-8; chassis assembly aspirator, 62828-90114-13

Supplementary Features:

Nsn restricted to use by nws depot team only

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T206-d
