Mounting Type:

Flat surface

End Application:

Automated surface observing system (asos)

Construction:

One-piece

Base Mounting Type:

Flange

Product Name:

Hinged sensor pole

Special Features:

Supports a wind sensor with obstruction lights at airports in the u.S.; weight - sensor is 20lbs located at 1.5' above top of pole, obstruction lights are 7.6lbs each located at top of pole, cables/connectors - 8lbs routed along inside of pole; protected area- 203 square inches, lights - 82 sq."; one piece; electrical junction box w/attachments mtd to one end of pivot pin; pole strengthened w/welded collar; painted in 7 alternating bands of orange and white; counter weights below pivot point; pole straight 7'6" from bottom then tapered to top

Height:

23.000 feet

Material:

Aluminum

Surface Treatment:

Paint

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T386-c
