End Application:

Automated surface observing system (asos)

Installation Design:

Any acceptable

Special Features:

Strut and probe assembly with capacitor; probe assembly for freezing rain sensor; lets users know when .01 inches of ice builds up on probe

Supplementary Features:

Nsn restricted to use by nws depot team only

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T206-d
