Overall Length:

12.000 inches

Overall Diameter:

4.500 inches

Carrying Case:

Not provided

Graduation Unit:

100.000 knots and 150.000 knots

Operation Method:

Wind speed actuates vane of meter movement

Special Features:

Sensing probe 14.0 in. Long, data bus output formats: rs-232 (transmit - only or two - way), rs-422/485, data protocol (user selectable via diameter switch) ascii or binnry

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T179-c
