Product Name:

Weather terminal set

Special Features:

A 2-person portable satellite data receipt and analysis system, designed as a first-in system for weather support on a world-wide basis; provides mission planners and air crews with realtime images/products of weather conditions in target areas; receives data directly from the satellites without reliance on other means of communications; data streams consist of visual and infrared imagery and mission sensor data

Functional Description:

Processes and stores data, generates meteorological soft and hard copy display products, and forwards the imagery and data to other systems

Supplementary Features:

Power 110/240 vac, 60 hz, 24 vdc; weight 510 lbs; dimensions 3x5x5 ft deployed; applicable t.O. 31m3-2tmq-43-431

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fiig:

A23800
