Stand alone weather system (saws)

## Wind Speed Rotor Material:

Steel, stainless

## **Special Features:**

Ultrasonic; fully compensated over temperature, humidity and altitude; material sensor arms: 316 stainless steel; sensor body: 6061-t6 anodized aluminum; transducer heads: silicone rubber and pvc plastic; function: wind speed and direction sensor; reference data: ti 6560.70, table8-1, pg 8-1

Shelf Life:

N/a

**Unit Of Measure:** 

Demilitarization:

No

Fiig:

T206-f
