Usage Design:

Wcollects windspeed and direction, relative humidity (dew point) temperature, visibility, present weather, total precipitation, cloud height, presence and direction lightning, runway visual range, barometric pressure (altimeter setting)

Installation Design:

Fixed

Special Features:

Automatic collection weather datafor weather monitoring system by zeno-3200. Data sent via cable, radio or fiber optics to pc/server running airport weather advisor. Used in ground to aiar, printers, lan, wan etc. Data in metar format presented as 1 minute observations, hourly reports and special reports

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T206-d
