Overall Length:

5.000 inches

Overall Height:

1.100 inches

Overall Width:

1.800 inches

Current Type:

Dc

Dc Voltage Rating:

5.0 volts

Accessory Components And Quantity:

2 aaa batteries; 1 ea neck and wrist lanyard

Operating Range:

-20.0/+60.0 degrees celsius

Information Recorded:

Pressure and relative humidity and temperature and wind speed

Recording Method:

Any acceptable

Chart Drive Method:

Any acceptable

Special Features:

Waterproof, floats; pocket weather tracker; graphs/recalls up to 25 measurements, incl wind speed/chill; dew point; heat index; time dated

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T206-a
