Overall Length:

21.700 inches

Overall Height:

14.600 inches

Carrying Case:

Not provided

Wind Speed Rotor Type:

Multibladed radial

Operation Method:

Wind speed actuates vane of meter movement

Special Features:

Extremely rugged, helicoid propeller, 360 degree rotation, measures wind speeds up to 134 mph

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T179-c
