| Carrying Case:   |
|--|
| Not provided   |
| Graduation Unit:   |
| 1.000 knots and 1.000 miles per hour                                 |
| Wind Speed Rotor Type:   |
| Multibladed radial   |
| Operation Method:  |
| Wind speed impeller actuates counting device                         |
| Scale Range:   |
| +0.0/+100.0 knots air speed and +0.0/+100.0 miles per hour air speed |
| Product Name:  |
| Marine wind tracker-wind speed/direction display                     |
| Special Features:  |
| 230.0 volts / 50-60 hz adapter                                       |
| Shelf Life:  |
| N/a  |
| Unit Of Measure:   |
|  |
| Demilitarization:  |
| No   |
| Fiig:  |
| T179-c   |
|  |
|  |
|  |
