**Furnished Items:**

Sensor assembly, transmitter assembly

**Component Quantity:**

2

**Product Name:**

Meteorological humidity-temperature transmitter

**Special Features:**

Humidity sensor, rotronic c-80, 0 - 100%rh; temperature sensor, pt100rtd, -22 to 150 degrees f; supply voltage 155 vac, or 24vac/3va or 10 - 35 vdc/100milliamps

**Precious Material And Location:**

Therometer platinum

**Precious Material:**

Platinum

**Reference Data And Literature:**

Manufacturers brochure and instruction manual

**Supplementary Features:**

Has special metal case and current output

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A23800
