Furnished Items:

Sensor assembly, transmitter assembly

Component Quantity:

2

Product Name:

Meteorological humidity-temperature transmitter

Special Features:

Humidity sensor, rotronic c-80, 0 - 100%rh; temperature sensor, pt100rtd, -22 to 150 degrees f; supply voltage 155 vac, or 24vac/3va or 10 - 35 vdc/100milliamps

Precious Material And Location:

Therometer platinum

Precious Material:

Platinum

Reference Data And Literature:

Manufacturers brochure and instruction manual

Supplementary Features:

Has special metal case and current output

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A23800
