End Application:

An/fmq-1 (v) 2

Product Name:

Manufacturers name mounting post & transducer assembly - icephobic coated

Special Features:

2centrally mounted stationary coil, 2k ohm dc resistance; precision conductive plastic potentiometer, 10k ohm resistance (porm 20%), 0.25% linearity, life exptctancy 50 million revolutions, rated 1 watt at 40 degrees c, 0 watts at 125 degrees c

Supplementary Features:

Replacement assembly for p/n 05103-66

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
