**End Application:**

An/fmq-1 (v) 2

**Product Name:**

Manufacturers name mounting post & transducer assembly - icephobic coated

**Special Features:**

2centrally mounted stationary coil, 2k ohm dc resistance; precision conductive plastic potentiometer, 10k ohm resistance (perm 20%), 0.25% linearity, life expectancy 50 million revolutions, rated 1 watt at 40 degrees c, 0 watts at 125 degrees c

**Supplementary Features:**

Replacement assembly for p/n 05103-66

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A23900
